Mr. / Chairman of the Foundation Dates oases

Mr. Ambassador to the State of Turkey in Algeria

Re: request for the establishment of a partnership “Algerian- Turkish Company”

Ambassador Greetings

We head of foundation Dates oases in Algeria have the largest manufactures of dates Which is the first is located in the East of Algeria with an area of 6 hectares from which 1.8 hectares are covered and the second is located in central Algeria state at province of Ouargla Of 03 hectares areas of which 01 hectare is covered, we have a special attention to Turkish investor and we desire partnership with him according to what is known about turkey From an international reputation and a great technological advancement.

Dear Sir, and as we move forward with this initiative for the establishment of an Algeria Turkish Dates company, working on the production of dates in Algeria and marketed in turkey , especially the countries of east of Europe and the rest of the world in general

As is well known, and a trader in the creation of Algerian partnerships with foreign based on the following ratio 51% are in the factory, some of its facilities, permit exploitation and represented 49% of buying raw material and the restoration of the plant , the necessary equipment , we have chosen investment in dates because it is considered second item exportable after oil besides the quality of the Algerian dates occupies first place globally and growing demand.

And in the latter, accept faithfully filled with love and appreciation, and we are waiting for your visit to preview the manufacturers and we are fully prepared to suggestions and answer your questions.
