Regarding the preparation of  
"IMPC 2018-EXPO. Extraction and processing of mineral raw materials»  
exhibition, held within the XXIX International Congress on minerals enrichment  
(IMPC 2018)

**Dear colleagues!**

During the preparatory work for the XXIX International Mineral Processing Congress (IMC - XXIX International Mineral Processing Congress, September 16-21, 2018, Moscow), the National Organizing Committee pays much attention to the quality of the "IMPC 2018-EXPO. Mining and processing of mineral raw materials» (further - Exhibition).

It is planned to hold an extensive business program at the Exhibition, which includes seminars, thematic round tables, various companies and projects presentations, discussions and B2B meetings. During the Exhibition it is expected to consider the actual problems of scientific achievements in the extraction and processing of hard mineral raw materials, introduction of innovative technologies and programs project financing and IT development in the mining and processing industry.

As participants of the Exhibition it is expected to attract a wide range of large international companies and corporations working in the field of mining and processing of minerals, mining and processing equipment, environmental protection and environmental safety, which will make the atmosphere of the event attractive and open for international partnerships.

We invite you to participate in the Exhibition and the events of its business program and we will be grateful for the questions that, in your opinion, are necessary or desirable to consider during the business program, as well as proposals for speakers, moderators and speakers.

On behalf of the Organizing Committee it is a great pleasure to invite you to the XXIX International Mineral Processing Congress that will be held in Moscow, Russia on September 15-21, 2018.

It is a great honor for us to host the Congress for the first time in Moscow. The Congress will gather over one thousand professionals and academics from all over the world to exchange knowledge and experience, to present the results of scientific research and to discuss innovations in the mining industry. Top universities specializing in mineral processing, all biggest mining companies, the major leading providers of services and technologies will participate in the Congress.

The International Mineral Processing Congress has been in existence now for more than sixty years. The very first congress was held in September 1952 in London, and with 39 technical papers and 332 delegates, it was indeed an impressive beginning of a series of ever growing congresses. The IMPC has been a major driving force for the promotion of scientific and technical knowledge in mineral processing and extractive metallurgy worldwide. It is the most prestigious event in the field of mineral processing in the world today. The congress has been truly international with delegates from all parts of the world deliberating on issues facing the mining and minerals processing industry globally.

We are very pleased to welcome you to attend and we are sure you will enjoy the Congress from both scientific and social points of view. Looking forward to meeting you in Moscow!
